DETAILED ACTION

Allowable Subject Matter

1. Claims 1,10,39-60 allowed.
2. The following is an examiner's statement of reasons for allowance: Prior art fails to show a quartz crystal tuning resonator having a plurality of quartz crystal tuning tines for undergoing vibration in an inverse phase. Wherein, at least at least one groove formed in the central linear of each of the first and second main surfaces of each portion of the quartz crystal tuning fork tines, a width of the groove in the central linear portion of one of the first and second main surfaces of each of the quartz crystal tuning fork tines being greater than or equal to a distance in the width direction of groove to an the groove measured from an outer edge of the outer edge of the tuning fork tine. Prior art also fails to show a quartz crystal tuning fork base to which the quartz crystal tuning fork tines are attached; at least one first electrode disposed on each of two of the stepped portions of each of the quartz crystal tuning fork tines; and at least one second electrode disposed on a side of each of the quartz crystal tuning fork tines, the second electrode of each of the quartz crystal tuning fork tines having an electrical polarity opposite to an electrical polarity of the first electrode of each of the quartz crystal tuning fork tines. Prior art also fails, to show a third set of gooves formed in the first and second main surfaces of the quartz crystal tuning fork resonator and between the first and second set of grooves. Prior art also fails to show, a combination of individual resonators according to at least two of A, B and C.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
